

SWISS – POLISH Cooperation Programme

2 Programmes

320.1 Mio. CHF

As part of the Second Swiss Contribution to selected EU member states, the Swiss-Polish Cooperation Program (SPCP) contributes to reduction of the social and economic disparities in Poland, promotes bilateral cooperation and strengthens knowledge exchange.

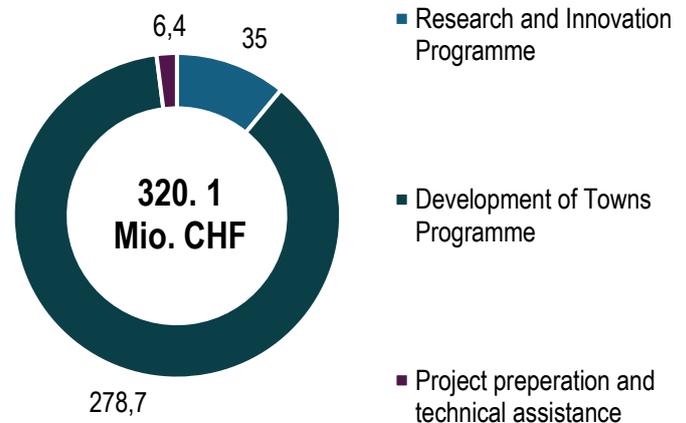

Until 2029, Switzerland provides over CHF 320 Mio. for two strategic programmes on urban development and research & innovation.

The SPCP builds upon the lessons learnt from the successful Swiss Enlargement Contribution to Poland implemented between 2007 – 2017.

The Second Swiss Contribution has a total value of CHF 1.302 billion and will last until 3 December 2029. On 30 June 2022, Switzerland and the EU signed a Memorandum of Understanding, specifying key parameters of the contribution, such as the amount, its distribution among the partner countries, thematic priorities and principles for cooperation and implementation.

Key Areas of Support

- Promoting economic growth and social dialogue, reducing (youth) unemployment
- Managing migration and supporting integration; increasing public safety and security
- Protecting the environment and the climate
- Strengthening social systems
- Civic engagement and transparency

Swiss-Polish Cooperation Programme

The Framework Agreement between Switzerland and Poland on the implementation of the Second Swiss Contribution, signed on December 5th 2022, provides the basis of the Swiss-Polish Cooperation Programme. The agreed upon strategic areas for cooperation, namely the development of marginalised Polish towns and the strengthening of research excellence and innovation capacities, were subsequently further specified in the relevant Support Measure Agreements signed on October 13th 2023. On December 5th 2023, the SPCP has been officially launched.

Development of Towns (DoT) Programme

The DoT Programme aims at contributing to the reduction of economic and social disparities within Poland by increasing the quality of life of citizens living in marginalized medium-sized towns. The total budget of the DoT Programme amounts to CHF 327.8 Mio CHF, including CHF 278.7 Mio. Swiss funding and CHF 49.1 Mio Polish co-financing.

139 pre-defined medium sized towns at risk of losing their socio-economic functions are eligible to apply for funding of their strategic development projects and access to advisory services and bilateral cooperation opportunities. Project proposals need inter alia to be based on city diagnostics, contribute to the cities' strategic development objectives and be developed through a participatory approach. Applicants can apply for funding of comprehensive projects comprising activities in the following thematic areas:

- vocational and professional education and training,
- financing for micro, small and medium-sized enterprises,
- providing support to migration management and promoting integration measures,
- improving public safety and security,
- energy efficiency and renewable energy,
- public transport,
- water and waste-water management,
- waste management,
- nature conservation and biodiversity,
- health and social protection,
- minorities and socially disadvantaged groups,
- civic engagement and transparency.

The call for proposals was launched on March 7th by the Ministry of Development Funds and Regional Policy acting as Programme Operator. By summer 2025, approx. 15-20 of the best ranked towns will be invited to further refine their proposals. Implementation of approved projects will start in the beginning of 2026. Beneficiary towns will be supported throughout the entire programme duration by the Association of Polish Cities (APC) in partnership with Swiss experts to improve their institutional capacities and management practices. Furthermore, they will get access to best urban management practices from Switzerland and benefit from exchanges with Swiss peers.

Research and Innovation Programme

The Research and Innovation Programme aims at strengthening the research excellence and innovation capacities of Polish researchers and enterprises through collaborative projects with Swiss and other international partners. The total budget of the Research and Innovation Programme amounts to CHF 41.2 Mio CHF, including CHF 35 Mio. Swiss funding and CHF 6.2 Mio Polish co-financing.

The Research and Innovation Programme supports:

- bilateral applied research projects of Polish and Swiss researchers and enterprises,
- multilateral basic research projects of researchers from Poland, Bulgaria, Croatia, Hungary, Romania and Switzerland.

The first of two calls for proposals for applied research projects was launched on April 22nd by the National Centre for Research and Development (NCBR) acting as Programme Operator. The call is supported by Innosuisse, the Swiss Innovation Agency as institutional partner of NCBR. The second call is planned to be announced for 2025.

The call for multilateral academic projects (MAPS) was launched on April 2nd by the Swiss National Science Foundation (SNSF) acting as Programme Operator. The call is supported by the National Science Centre (NCN) as institutional partner of the SNSF.
