

**MISSIONS OF THE EUROPEAN UNION, ACCEDING COUNTRIES,
ASSOCIATED COUNTRIES, NORWAY AND SWITZERLAND
REPRESENTED IN KOREA**

EMERGENCY GUIDELINES FOR CITIZENS

1. GENERAL

A crisis could be a natural disaster (flood, earthquake, explosion of nuclear power plants etc.), civil disorder or armed conflict.

This pamphlet contains advice on personal action in the event of a crisis and recommendations concerning individual preparations for possible evacuation.

In case of a crisis you should try to obtain as much information as possible about the development of the crisis through American and Korean news broadcasts. Your Embassy will also try to provide information in your language and/or English through the American (AFN) and local (KBS, MBC) radio and/or television network. You should be aware of any particular instructions or advice issued by your Embassy. In the case of certain EU Embassies this may be found on the Embassy's website. We advise you to keep a portable radio (with spare batteries) to hand, as well as a list of the frequencies of the stations named. (See Annex 1).

In a crisis, EU states will try to coordinate their actions through a joint crisis unit.

2. PERSONAL/INDIVIDUAL PREPARATIONS

A) Record of Property and Valuables

Keep a list of private property/valuables and deposit a copy with friends or your insurance company in your home country.

B) Private Vehicles

Keep your vehicle fully operational (tank filled up, small stock of fuel in the house). In the event of an evacuation, the use of your private vehicle is strongly not recommended. In the event of military build up, MARTIAL LAW will be inevitable, which as a result will restrict movements.

C) Passports and personal documents

Prepare a small handbag (kept to hand) with essential personal documents as:

- Passports and residence card(s) for you and your dependants and foreign servants;
- Vaccination documents;

- Insurance policies ;
- Personal documents.

D) Local / foreign exchange

Keep a reasonable supply of local and foreign exchange (Euro or US-dollars). Ensure your credit card(s) are valid, which will be of help when you are evacuated to another country.

E) Personal equipment and supplies

In case you need to move to a safer place within Korea or to another country, prepare an emergency pack of essential items (keep it light, you must be able to carry it yourself).

Be advised that it will be very unlikely for you to get the opportunity to carry these items in the event of a military evacuation.

A small handbag with your personal belongings as mentioned in C) are essential!

- Clothing according to season (cool evenings!) and strong shoes;
- Woolen blanket or sleeping bag and perhaps an air mattress;
- Washing kit; hygienic articles, baby articles, insect repellent etc.;
- Portable transistor radio and spare batteries;
- Flash light and spare batteries;
- First aid box and personal medicines;
- Water and canned or vacuum packed food for one or two days;
- Dishes and cutlery (camping set?), camping cooker;
- Also take your spare spectacles.

In the event of a critical political development, instructions will -if circumstances permit- be given by your Embassy.

! STAY HOME AND KEEP IN CONTACT WITH YOUR EMBASSY !

! DO NOT ATTEMPT TO VISIT YOUR EMBASSY IN THE EVENT OF A CRISIS !

F) Registration

In order to allow for Embassies to properly plan and prepare protective measures they need to have accurate figures of EU citizens in Korea. You can help in this by following your Embassy's local procedure and ensuring you know how to access your Embassy's Travel Advice in the event of a crisis, and updating your contact details when changed.

G) Biological and chemical threats

One of the risks identified by the RoK authorities in the event of conflict is the threat of Biological and Chemical Weapons. Protection in the event of the deployment of such weapons depends on the nature of the attack. You are advised to follow the advice of the local authorities and remain in contact with your Embassy.

Biological and chemical (B&C) threats might be used in an armed conflict on the Peninsula. In the event of an attack using B&C weapons, and if local advice is unavailable, you are advised to reduce the airflow by closing all windows and doors, sealing all points of airflow with plastic sheet or wet towels fastened with tape. You could do so in the entire house or perhaps even better choose one room (e.g. a room in the centre of the house with no windows) as your shelter.

H) Korean Guidelines and Emergency Shelters

It is advisable to be aware of the Korean guidelines of what to do in an emergency situation, ranging from natural disasters to terrorist attacks (including biological and chemical threats) and to industrial accidents. The Korean authorities have guidelines, in English at this website:

<http://www.mpss.go.kr/en/>

Below is the symbol for a shelter which should be looked for when seeking a safe area in the event of emergency.

You can also look for shelters near you online. This website is available in Korean only so we suggest that you ask colleagues and friends to assist you in confirming where the shelters are near your house and place of work.

http://www.safekorea.go.kr/dmtd/contents/civil/est/EmgnEquipList.jsp?q_menuid=M_NST_SVC_03_04_01

[For information when you enter the website the first box asks for your city/province, the second box for your district (Si/Gun/Gu) and the third box for your local area (Eup/Myun/dong). The Final box type asks for the type of facility you are looking for - shelter is the last on the list.]

Korean authorities have launched a new application for smart phones which allows to find the location on shelters nearby.

The application can be downloaded under a Korean name only and it is in Korean language but shelter locations can be found in English.

Please note that possible change of use and/or of the conditions of the registered shelters are not updated on a regular and frequent basis and it is therefore advisable to verify the location of a shelter nearest to your residence/workplace through an independent source (i.e. through co workers, apartment/office building maintenance office, private visit).

Finally please bear in mind that these shelters, mainly due to space constraints, are not equipped with facilities that allow extended periods of stay, ie. not more than a few hours and you should be prepared to cater to your most urgent needs (eg. food, water, medication) by yourselves.

3. PREPARATION FOR AN EVACUATION

A) General

In the event of evacuation it may not be advisable to risk proceeding on an individual basis. In the area of Seoul and in the risky areas, it is probably better, initially, to maintain a stay-put policy and/or remain at home. You can then seek the advice of your Embassy.

This policy may also apply (in general) to natural disasters.

In the event of civil disorder, however, it may be advisable to move to a safer part of Korea or to leave the country, especially if you have sufficient warning. Always try to inform your Embassy of your departure or other movements.

In case of emergency, there is a warning sirens system which will sound in all public places (Please note that simulations take place regularly). See annex 2.

If your Embassy recommends evacuation either to a safer part of Korea or to another country, you should be aware of the following:

- Participation in such an evacuation is entirely of your own volition and at your own risk;
- Participation in such an evacuation will be at your own expense. Any costs borne by your Embassy will have to be refunded at a later date ;
- Your Embassy will not be responsible for any personal damages or losses you may suffer;
- Children, sick or wounded persons and women should be dealt with first.

B) Individual action

Please stay at home. Notice of intention to evacuate and instructions on individual action will -if circumstances permit- be announced by your Embassy. AFN at 102.7 MHz and television will also broadcast messages on an evacuation. See Annex 1.

Communications / liaison

EU Embassies cannot guarantee that vital information will reach everyone in time. You should therefore make every effort possible, even if the local telephone network fails, to keep in touch with your Embassy or any of the contact points. In a real emergency you could try to establish contact through one of the US installations though, there is no guarantee of assistance.

4. WARNING SIRENS

See Annex 2 for details of warning sirens.

5. KOREAN EMERGENCY TELEPHONE NUMBERS

See Annex 3.

6. CONTACT POINTS

A list of important addressees and telephone numbers is contained in Annex 4.

Ensure that all your family members read this paper and have a copy of it.
